THANYALAK LUAMSAI

Front-End Developer

SUMMARY STATEMENT

I am a Software Engineer (Front-End Developer) who is providing a web application and application solutions for driving a business to be success. I have skills at designing and developing web-based applications .

I am eager to learn new things, team worker, interpersonal skills, and work hard in order to get the best result for myself and the company.

WORK EXPERIENCE

JUNIOR SOFTWARE ENGINEER – FRONT-END DEVELOPER

HIVE VENTURES LTD. | July 2021 – Present

Spoonwalk Project is the platform used for searching restaurants, reviewing them, and getting delivery from them.

- Web application: Develops web application by Next.js frameworks and using react-query to access data from API. I'm a part of the project in terms of developing website by the following features below:
 - Register and Login/Logout feature.
 - Manage personal information feature by using react hook form for managing validation form.
 - Add address and map pin for delivery feature by using react-google-maps library.
 - Add credit cards payment feature.
- Application: Develops application by React Native frameworks. I'm a part of the project in terms of developing application by the following features below:
 - Restaurants' review page such as write review, give rating to restaurants, view reviews, search restaurants, etc.
 - Order delivery history.

PROGRAMMER
